

Upgrade to Pro

the next generation

Benefits

Faster & Easier	Keystrokes reduced significantly
GUI Interface	Intuitive
Single Login	Only log in once and open multiple options
Fonts & Colours	Each user can specify their own theme
Tabs	Options with multiple screens now appear as one screen with multiple tabs allowing data to be recorded in any order
Pick Lists	Replaced with powerful search tools
Scroll Lists	Replaced with radio buttons
Sortable Columns	Quicker and easier to find required information
Data Navigation	Quicker and easier to navigate reference data and transactions with search, next, previous, first and last buttons
Fewer Menu Options	Many options have been removed as they now appear as tabs. The Cellar Work Sheet Entry option, for example, is a consolidation of nine menu options
Address Details	Suburb, state and country have been added for Debtors, Creditors, Growers, Prospects and Employees
Exporting Data	Export options will open MS Excel automatically
SQL Server	Easier integration with other software and devices. Provides better data security and integrity. No need to rebuild indexes
Mobile API & Apps	POS, Cellar Operations and Analysis, Stock-Take, Sales Rep Sales & CRM
Data Migration	<i>No data will be lost</i>
